英文	9	9. Critics noted the <u>poignant</u> tone that permeates much of the author's later work. (A) cynical (B) eloquent (C) moving (D) nostalgic According to the definitions provided by the Cambridge Online Dictionary: https://dictionary.cambridge.org/ (1) poignant: causing or having a very sharp feeling of sadness (2) moving: causing strong feelings of sadness or sympathy (3) nostalgic: feeling happy and also slightly sad when you think about things that happened in the past “Nostalgic” is not the correct answer because it specifically describes a feeling of happiness mixed with slight sadness when thinking about the past. In contrast, “poignant” means causing a very sharp feeling of sadness, and “moving” means causing strong feelings of sadness or sympathy. The sentence does not mention memories or the past, so “moving” is the closest synonym to "poignant.”	維持原答案 (C)
